| Closest to the Bag #12 | Men's Longest Drive #16 |

This year, all of the proceeds will go towards the purchase of AEDs for various organizations within our community!

An AED, or Automated External Defibrillator, is a portable device that delivers an electric shock to the heart when it detects an abnormal rhythm, helping to restore a normal heartbeat. It is designed for use by non-medical operators and can be used in emergencies, particularly during sudden cardiac arrest situations.

AEDs are equipped with visual prompts to guide users through the process, making them accessible for public use - which means they are extremely valuable because they can help save lives in any setting!

This year, your sponsorship and participation can help save a life!

Join us in making the distribution of AEDs happen!
